Avalon

Elegance in essence Unique fusion of stone textures and advanced technology in floor to wall format for exceptional porcelain tiles. Avalon is a unique fusion of exceptional stone textures combined in an exclusive way. Each piece of this porcelain tile is unique and captivatingly harmonious. Inspired by classic natural stones and following the latest design trends, Avalon is a Ceppo di Gré in balanced evolution, with micro-volumes and textures, gloss and matt, the result of innovative manufacturing techniques that enrich the finish of each tile, in infinite variability and absolute realism. The relief of Avalon is extremely natural, with a slight aged or weathered touch. The combination of limestone, sandstone and quartzite gives character, defining the design in harmony. The matt appearance of the collection in shades of sand, grey and white gives it a relaxed, subtle and defined look. Avalon comes in 60x120, 30x60 and 60x60 formats. In combination with Suite Avalon, decorative relief white body 30x90 pieces, with the appearance of stone chiselled by parallel lines, it transcends the boundaries of conventional ceramics, transporting you to a world of sophisticated beauty. Avalon belongs to Roca Tiles' InTech+ family, generated with the latest advanced printing technologies that achieve a faithful reproduction of nature in each piece, capturing the essence and beauty of natural materials. Precision, realism, relief, detail and aesthetics never seen before in porcelain tiles.
