Serena Crosscut

Inspired by the eternalness of classic stone, Serena masterfully combines the outstanding qualities of Portland stone with the warm limestone backgrounds of Limestone or coral with a delicate weave and unmatched uniqueness. In the process of creating Serena, the best characteristics of each stone have been fused together using innovative InTech+ technology. The digital reliefs provide great depth, while the C2 finish treatment ensures exceptional resistance in high-traffic areas, maintaining a smooth texture that is pleasant to the touch. With a matt porcelain finish, the Serena collection has been developed with the concept of a super-collection, a multitude of formats for floor and wall tiles. Serena Crosscut, holds dynamism and depth without sacrificing nuanced tones and visual softness with its contemporary and evocative appearance. This finish is visually interesting for its sense of movement and depth on the surface of the stone, with the mixing of different tones within the same piece. Available in the colours Bone and Moka.
