Serena Veincut

Inspired by the eternalness of classic stone, Serena masterfully combines the outstanding qualities of Portland stone with the warm limestone backgrounds of Limestone or coral with a delicate weave and unmatched uniqueness. In the process of creating Serena, the best characteristics of each stone have been fused together using innovative InTech+ technology. The digital reliefs provide great depth, while the C2 finish treatment ensures exceptional resistance in high-traffic areas, maintaining a smooth texture that is pleasant to the touch. With a matt porcelain finish, the Serena collection has been developed with the concept of a super-collection, a multitude of formats for floor and wall tiles. Serena Veincut elegantly exposes the linear lines characteristic of the natural sedimentation of the original materials. This finish offers a more structured look with a clean aesthetic. Available in the colours Bone and Moka.
