## Terranova

Natural shelter. The intense black colour is anything but sombre. The natural elegance of slate, its satin touch and the subtle sheets of its layers delve into the naturalness of a piece that recalls the worn effect of natural stone by adding the unchanging performance of porcelain tiles. Thus, the interiors created with Terranova are perfect for those who aim to shape a haven where everyone feels at home. Ideal to recall both the warm northern cabins beside the fireplace and high-contrast contemporary spaces, Terranova is also available in a modern hexagonal mesh format and can be used for combined floor tiles and in decorated and wall tile compositions.
