Concrete

The porcelain tiles of the Concrete Collection redefine exposed concrete, a texture that is increasingly valued in contemporary architecture. Known for its versatility and for being timeless, concrete is no longer seen as just a support for environments and has been gaining more and more space on floors and walls. The highlight of the collection is the new 100x200cm format. The tiles are available in Matt and Polished finishes, ideal for creating a sense of visual unity for rooms with different usage needs.
