## Marble Platinum

Platinum is a Sea of Tranquillity on Earth, an elegant, chromatically sober marble with great visual detail, which envelops you in a lunar landscape of sinuous grey veins, inspired by a quartzite that is singular for its rarity and beauty. The dark grooves running through each piece faithfully replicate the natural texture and shine of the stone with micro shades in anthracite grey, charcoal, slate, silver and ash. The grey range has been joined by a new one in luminous and ethereal pearl. The sensorial experience is not limited to the eyes, its polished smooth and slightly wavy to the touch finish with a satin matt effect is reminiscent of ancient marble worn by the passing of time. A dreamlike and inspiring porcelain tile that conveys calm and serenity.
