Block

Evolving Geometries. Succumb to geometry in small format along with the creativity in combinations that come with Block. Block is multiple and versatile. Its hexagon, rectangle or arrow pieces give life to spaces in an original and very current way. The installation possibilities are expanded through Block with attractive horizontal, vertical or herringbone patterns. The collection also includes glazed porcelain tiles, with monochrome modular units offering different patterns, which give a new aesthetic dimension to the handmade hydraulic mosaic. It generates unique environments where Block's monochrome pieces provide surprising results, whether in their gray palette or in their green or blue range, in gloss or matte.
